

UPGRADE YOUR SYSTEM

COMMAND-10® REMOTE

- Remote and receiver come pre-programmed and easy to re-program
- Remote controls 10 devices from more than 100 ft. away or from the comfort of your cab
- Remote shuts off when the lid is closed or after 3 minutes of inactivity
- Built-in overload protection
- Stainless steel terminals and hardware
- Weather and impact resistant receiver
- Uses common AAA batteries
- Glove friendly on/off and open/close toggle switch

COMMAND STATION

- All the features of the COMMAND-10® minus the convenience of a remote which can be added at a later date

Electric Tarp Kits

- ROLTEC® Electric Tarp Conversion, semi trailer (for side locking tarp systems w/ 2" steel tube)
- ROLTEC® Command Station Electric Tarp Conversion, semi trailer (for side locking tarp systems w/ 2" steel tube)

Electric Hopper Kits

- ROLTEC™ Electric Hopper Conversion – COMMAND-10® (dual hopper trailer)
- ROLTEC™ Electric Hopper Conversion – Command Station (dual hopper trailer)

NOTE: Additional wire and hardware may be required if adding systems to a pup trailer. Additional configurations available for electric tarps and hoppers. Please call for additional information.

Tarps and hoppers use the same remote to make loading and unloading hassle free

**American Made
Tested. Trusted. Guaranteed.**

**ELECTRIC TARP CONVERSION****MOTOR**

- Worm gears create an instant, positive lock with no backing off for a tighter fitting, longer lasting tarp
- No brakes to fail
- Chain drive has a powerful and fast 194:1 gear ratio
- Corrosion resistant and durable metal housing
- Controls the tension of the tarp, when heaped loads settle, touch the switch to tighten the tarp

ROTATING AND TELESCOPING MOTOR MOUNT

- Allows roll tube to rise and flex over heaped loads, reducing stress on the drive components and pivot arm
- 4 springs create positive return tension when closing the tarp system
- No elbows or joints to break

UNIVERSAL MOUNTING BRACKET

- Sturdy, lightweight, with a universal fit
- Female dual-pole connector is incorporated into the mount
- Optional slant bracket available Part # 70584

MANUAL OVERRIDE

- Simply remove one pin to operate manually
- Motor stays secured to roll tube

OPTIONS

- Choose between COMMAND-10® or Command Station

ELECTRIC HOPPER CONVERSION**MOTOR**

- Worm gear motor and chain drive gear box provide optimal torque needed to open and close the hopper
- Worm gears create an instant, positive lock
- No brakes or limit switch to fail

RELIABLE CHAIN DRIVE SYSTEM

- Corrosion resistant and durable metal housing

STABLE, HIGH CLEARANCE DESIGN

- Installs above factory hardware with a stabilizing arm for a three point mounting system

SPLIT SPROCKET TECHNOLOGY

- Simply weld the sprocket assembly to the existing shaft to mount the motor and gear box, no need to cut drive shaft in most cases*

MANUAL OVERRIDE

- Pinless, quick link detachment if needed

OPTIONS

- Choose between COMMAND-10® or Command Station
